

● GIIYO STEM CENTRE • LIMBE

Build the Giiyo STEM Centre **with us**

A modular STEM learning hub in Limbe where partners can support infrastructure, programme delivery and learner access.

September 2026

HOW IT WORKS

No single organisation has to fund the entire project.

Partners can support the areas most closely aligned with their priorities, while every contribution becomes part of **one coordinated Centre**.

● The smaller sponsorship packages are entry points into the Centre components.

THE CENTRE

Five Ways to Build It

1

Facility & Learning Space

4,280,000 FCFA

Partially Secured

2

Power, Connectivity & Safety

8,130,000 FCFA

Open

3

Learning Technology

5,140,000 FCFA

Partially Secured

4

Staff & Facilitators (18 months)

24,450,000 FCFA

Open

5

Programme Delivery & Learner Access

5,040,000 FCFA

Open

CENTRE COMPONENT 01

Facility & Learning Space

4,280,000 FCFA

Partially Secured

Host Partner: SAMICOL Limbe · Secured

Creates the physical learning environment: room preparation, furniture, secure storage, signage, electrical work and a contribution to host-school utilities.

Facility Partner: support all or part of the remaining setup. Recognition may include the partner wall, logo placement, launch and showcase recognition, and impact updates.

CENTRE COMPONENT 02

Power, Connectivity & Safety

8,130,000 FCFA

Power Partner · Open

Connectivity Partner · Open

Solar hybrid power, battery storage, surge protection and UPS capacity, internet installation and service, offline content infrastructure, ventilation, fire and first-aid equipment, CCTV and alarm systems.

2,750,000 FCFA

Power the Centre: a contribution toward solar backup and electrical protection

CENTRE COMPONENT 03

Learning Technology

5,140,000 FCFA

Partially Secured

Computers, projector and screen, robotics kits, microcontrollers, sensors, hand tools, soldering and protective equipment, charging, storage cases and 3D printers.

Equipment Partner

CENTRE COMPONENT 04

People who make the Centre work

Technology alone does not create learning.

24,450,000 FCFA

18 months of programme leadership, a Lead STEM Facilitator, an Operations and Records Officer, part-time facilitators, facility support, guest mentors, volunteer support and staff training.

4,075,000

Delivery Team Partner: an indicative three-month share (one-sixth of the staff budget)

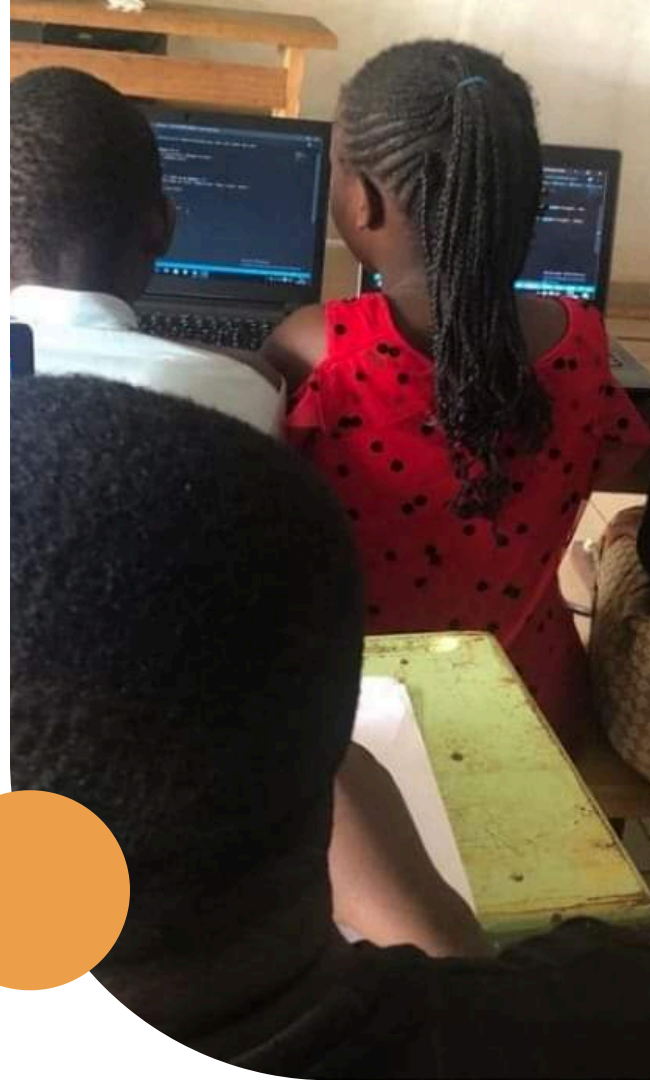

CENTRE COMPONENT 05

Programme Delivery & Learner Access

5,040,000 FCFA

Open for Sponsorship

Workbooks and portfolios, practical project consumables, scholarships and transport support, public showcases, school outreach, Academy materials and Young Innovators project support.

CHOOSE YOUR IMPACT

Smaller Ways In

Entry points into the Centre budget, not additional project costs.

275,000

FCFA

Equip a Learner Station

A shared device and accessories, a furniture contribution and learning materials

750,000

FCFA

Sponsor 10 Scholars

Partners often sponsor a group of scholars

2,750,000

FCFA

Power the Centre

Toward solar backup and electrical protection

4,075,000

FCFA

Delivery Team Partner

An indicative three-month share of the staff budget

Founding Partner visibility is agreed individually and reflects the scale of the contribution.

HOW TO SUPPORT THE CENTRE

Find Your Way In

- 1 Sponsor a complete Centre component
- 2 Fund a specific learner cohort
- 3 Sponsor a school STEM club
- 4 Support facilitators and Centre operations
- 5 Donate equipment or professional services
- 6 Sponsor learner scholarships
- 7 Become a Founding Centre Partner
